United Bank Presents Donations to Georgia Heart Hospital Program

United Bank recently presented \$100,000 in donations to four community hospitals as a part of the Georgia Heart Hospital Program. Donations were made to the Monroe County Hospital, Wellstar Sylvan Grove Hospital, Morgan Medical Center and Upson Regional Medical Center. The donations will help enhance access to medical services in the communities of Forsyth, Jackson, Madison, Thomaston and their surrounding markets. Each donation was for \$25,000.

“We believe that all Georgia communities, whether in a metropolitan or rural demographic, deserve access to quality healthcare,” explained Jim Edwards, CEO of United Bank. “The recent pandemic has put additional strain on the healthcare community, but through Georgia Heart, companies like United Bank can play an important role in supporting our rural hospitals. Our middle Georgia communities are fortunate to have the excellent healthcare provided by our local hospitals and their hard-working employees.”
